

Prohibited Items at NGA

- If your personal device/item transmits, takes photos (digitally or with film), records or has accessible memory (via a USB/cable or wireless interface) you will not be permitted to bring it into the building.
- If the device/item is government furnished: a blackberry, cell phone or pager, follow the instructions given at the time of issue. Blackberry antennas must be turned off, cell phones must be turned off and pagers can be used anywhere.
- If you have a camera equipped personal cell phone, it must be left in your car. If you ride public transit vehicles to work, there are lockers in the lobbies that you can secure your items in during your duty hours. Do not leave the phone turned on while it is in the lobby lock boxes as they will be confiscated if they start ringing.
- For common prohibited items, review the signage at all NCE main gates, lobbies and SCIF entrances.

- List of Prohibited Items (examples only, list is not all inclusive)
